SUMMARY

I am a Full Stack Developer with over 2 years of experience building scalable and interactive web applications using Next.js, TypeScript, MongoDB, and AWS cloud services (Amplify, Cognito, S3). My work includes developing real-time systems with LiveKit and integrating Web3 technologies to power innovative earning models for streaming platforms. I have built solutions like StreamXCapital, a debt resolution app with dynamic forms and financial recovery dashboards; StreamX, a live streaming platform enabling real-time earnings via Web3 tokens; Sozorock Health and Sozorock Provider, healthcare platforms with appointment scheduling and medical record tracking; and multiple e-commerce and job consultation platforms featuring secure payments and user management.
